DETAILED ACTION

Acknowledgment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 9-43 are allowed.

3. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the travel bag as recited in claims 9, 14, 16, 24, which include a flexible enclosure and an external rigid support member. The external rigid support member has a main portion, a bottom portion, and side portions. The bottom portion joins the main and side portions to form a partially enclosed concave part into which a portion of the flexible enclosure is fitted and affixed. The external rigid support member fits only over substantially a quadrant of the flexible enclosure so that the remaining substantially three quadrants of the flexible enclosure are not enclosed by a support member. The flexible enclosure being formed of a strong material arranged as an enclosure having a top, sides and bottom portions. The sides being flexible so that when the bag does not contain contents the top can be collapsed into the concave part in a storage position. The flexible enclosure includes an opening formed in the enclosure and closure means connected to the enclosure so that the closure means can

be engaged to close the opening. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
